Penetration Testing

People-Powered, Real-Time Results

While automated and crowd-sourced testing uncovers observable vulnerabilities, finding deeper issues requires manual testing with a human, hands-on approach.

Our team of experienced testers combines sophisticated manual techniques, the latest tools, and automation to supercharge the exposure and exploitation of weaknesses in your environment.

Penetration Testing | Penetration Testing as a Service

Our team applies human understanding, skill, and creativity to uncover vulnerabilities that automated platforms can miss.

Network *Internal, External & Wireless*	**Red & Purple Teaming** **Cloud**
Social Engineering *Physical, Phone (Smishing/Vishing) & Email (Phishing), AI Deepfakes*	

Application Testing

Most applications have weaknesses waiting to be exploited, putting your digital estate at risk. Our skilled testing team includes former developers who identify and assess threats at the application layer.

APIs	Containers	Medical Devices
Cloud	Desktop	Mobile
Cloud Virtualization	Embedded Devices	Web

Evolving Threats

Standardized testing and procedures make comparisons, reporting, and benchmarking across attack testing instances easier.

Cloud Security	IoT	Nation-State Sponsored
Ransomware	Supply Chain	

BENEFITS

Validate & Evaluate Security Controls

Detect Vulnerabilities Before Attackers

Apply Expert Remediation Guidance

Relentlessly Focused on Cybersecurity

When you partner with Converge Cybersecurity, you can expect your priorities to be ours. Our team of strategists, former CISOs, and security experts provide unbiased expertise to help you build, manage, and optimize cybersecurity across your enterprise.

From technology solutions to advisory services, we bring our decades on the front lines of cybersecurity to help you safeguard your organization in a shifting landscape of risks, vulnerabilities, and regulations. We listen first, apply our expertise to address your challenges, and ensure that the technologies we deliver meet your current and future needs.
