CyberdefenseEDU

Your IT team doesn't have to go it alone.

Cybersecurity Built for Education

Attackers indiscriminately choose targets for data they can use for monetary gain. In a school setting, the consequences are far-reaching, with impact to privacy, compliance, instruction time, trust, reputation, and finances.

We understand the unique cybersecurity challenges that schools face. Our CyberdefenseEDU is packaged and tiered to address top risks, pain points, and budget constraints to help schools prepare for the "when" not "if" reality of today's threat landscape.

INCLUDES

Cybersecurity Ambassador

Ransomware Readiness Assessment

Incident Response Plan Development

Incident Response Tabletop Exercise
