

# Identity & Access Management

## Adopting an Identity-First Security Strategy

Secure, improve, and enhance your critical juncture of people, systems, and data with Converge. Know and control who and what has access and prevent identity-related threats with our zero-trust approach.

Build and calibrate your identity and access management (IAM) program, processes, and technology with our experienced team of industry- and technology-certified experts.

We blend advisory and implementation skills to recommend best-fit technologies and develop optimized programs for every level of IAM maturity. Our experience across industries, compliance requirements, and technologies makes us the preferred IAM partner for organizations of all sizes.

### IAM Program Strategy

Take your IAM program from vision to action guided by seasoned advisors.

Roadmap & Strategy	Program Development, Implementation & Management	Policies, Standards, Guidelines & Procedures
--------------------	--	--

### Identity Governance & Administration (IGA)

Empower users from day one with technology and processes that secure and automate access.

Lifecycle & Governance	Access Request	Certification, Attestation & Reporting
Role-Based Access Control (RBAC)	Access Provisioning & Deprovisioning	

### Access Management (AM)

Authenticate and authorize access for the right users and block unverified ones from getting in.

Federated Identity	Single Sign-On, Multifactor Authentication & Passwordless	Conditional/Adaptive Authentication
Authentication		Just-In-Time Provisioning
Authorization		

## BENEFITS

**Secure Critical Assets From Improper Access**

**Automate & Lower User Lifecycle Management Costs**

**Enhance User & Customer Experiences**

**Simplify Compliance Reporting for Access Requirements**

## Privileged Access Management (PAM)

Elevated permissions need right-sized controls to ensure just enough access and no more.

Privileged Account Management

Password Vault

Privileged Session Management

## Customer Identity & Access Management (CIAM)

Make customer engagement, enrollment, and retention secure and frictionless.

Enhanced Customer Experience

Progressive Profiling  
Identity Verification

Social Login / Biometrics  
Self-Care

## Next-Gen Solutions

Learn, evaluate, and implement what's next for IAM guided by our field experience.

Identity Threat Detection & Response (ITDR)

AI Enablement

Cloud Infrastructure Entitlement Management (CIEM)

Self-Sovereign Identity / Blockchain Identity

Emerging Technologies

## Technology Industry Leader

Converge Technology Solutions Corp. is a services-led, software-enabled, IT & Cloud Solutions provider focused on delivering industry-leading solutions. Converge's global approach delivers advanced analytics, application modernization, cloud platforms, cybersecurity, digital infrastructure, and digital workplace offerings to clients across various industries.
